

A SMART END OF LINE PACKER

Machine solutions from clever minds

Increase your capacity and save space

End of Line Packer

Designed for pharmaceutical production. With high capacity on a small footprint the Graniten End of Line Packer packs your products in two-piece (tray, lid) shipping boxes and palletizes the boxes.

In spite the small footprint it is an open solution with few moving parts and two pallet places. Shipping box labelling and label control is standard. Reject and IPC functions are also standard.

The two-piece shipping box gives tremendous savings potential in shipping box material standardization.

Main features

- Compact and open
- Two pallet places
- Simple and quick format change
- Labelling and label control
- Reject, IPC
- Prepared for aggregation system

Options

- Extra shipping box label
- Shipper box ink jet marking
- IPC reentry function
- Integration of aggregation system

Technical Data

Capacity cartons
Up to 250 ppm
Up to 6 kg
Capacity shipping boxes
Up to 5 ppm
Up to 12 kg

Machine dimensions

Length 4,3 m
Width 4,8 m
Height 2,5 m

Media requirement

Electrical - 400V, 25A
Air Supply - 6 Bar, 12 liters' free air/cycle
